Powerful Baritone Sound
Sound Fidelity 590i

SOUND**FIDELITY**

Emphasizing design harmony with Apple Inc.'s iMac
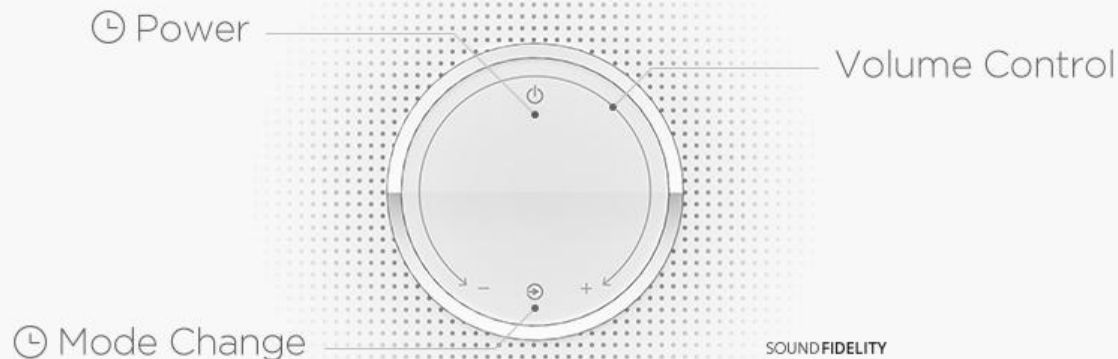

The innovative and modern design of the buttonless and

seamless body will delight your eyes and ears.

Simple ring Control Touchpad

Silvering on the touch pad is designed as a key point to emphasize modernity and simplicity.

You can use 'All in One Control' by simple touch.

Power

Touch the touchpad power button for 2 seconds to toggle the power ON and OFF.

Volume Control

Slide the touchpad clockwise (+) to the turn up volume, and slide the touchpad counterclockwise (-) to turn down the volume.

Mode Change

Touch the touchpad mode button for 2 seconds to change the mode in the following sequence: LINE IN, RCA, and BLE.

AptX with Bluetooth 4.0 Wireless Sound system

With Bluetooth 4.0 support, you can listen to music without additional cables.

You can seamlessly enjoy high-fidelity original CD sound with the default SBC codec for Bluetooth devices,

the AAC codec for iOS devices and the AptX codec for high-end speakers.

AptX

Since the AptX codec is optimized for Bluetooth streaming, it can support seamless streaming for high-fidelity original CD sound without any additional settings.
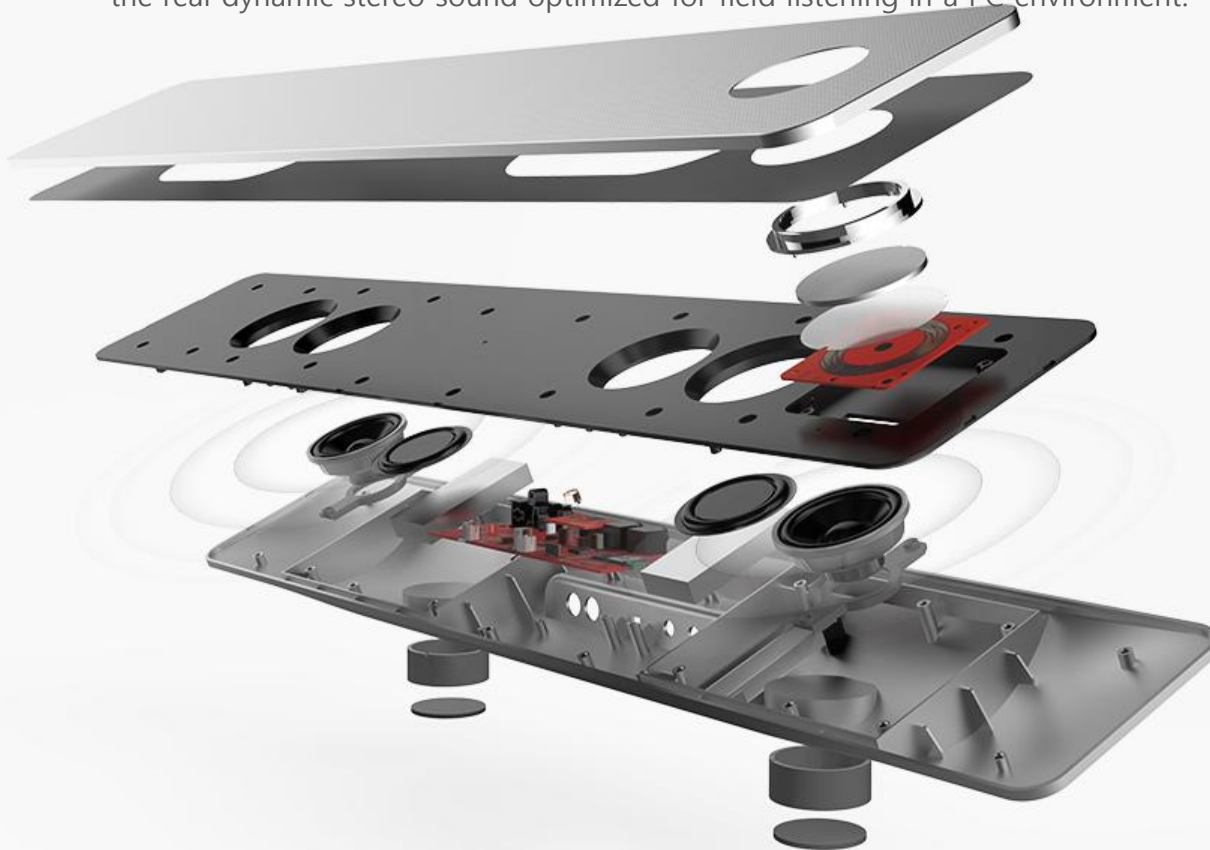

Bluetooth 4.0

Bluetooth 4.0, which is a short-range radio technology standard for wireless communication, can minimize data loss and significantly lower power consumption. You can enjoy sound via direct wireless connections between Bluetooth devices and the soundbar.

SOUND FIDELITY

Powerful Baritone Sound
2 way Compact Speaker with Dual Passive radiator System

The dual passive radiator system is used to strengthen mid/low frequency sounds to produce a rich baritone sound beyond the maximum output (12w). You can install the system directly in front of a PC monitor to enjoy the real dynamic stereo sound optimized for field listening in a PC environment.

SOUND FIDELITY

LINE IN & RCA Connection

In addition to Bluetooth, the LINE-IN and RCA jacks can be used to support a variety of multi-media devices, including PC, TV, mobile phones, etc. You can easily change the mode setting with the touchpad Mode Change button. If connected to mobile phones, it is also available to use as hands-free.

LINE IN/OUT
With 3.5mm audio jacks, you can connect the system to various audio devices.

RCA
With the RCA jack, you can connect the system to various audio devices.

4 Colors, 4 Impressions

An innovative design and four different sensibilities created by the emotionally touching four colors can capture your emotions and personality in any environment.
